## Capability Statement

Dasher Services, Inc., founded in 1984, is a **Woman-Owned** business and an *experienced subcontractor* working with clients to move and manage confidential information.

Dasher operates in a 12,000 square-foot facility secured 24/7 with security guards, surveillance cameras, and limited access points within the building.

### Expertise

- Personalized/confidential correspondence produced and distributed with same day service when required;
- Secure facility, HIPAA compliant operations including robust quality assurance procedures that protect confidential/sensitive information;
- Contact center for inbound/outbound calls to collect confidential/sensitive information, such as professional credentials and CME;
- Imaging, indexing and data warehouse storage for high volume, high complexity document management, including medical records;
- Four fuel-efficient ground transportation vehicles for local/regional courier service with experienced, professional drivers; and
- Experienced data entry technicians and programmers.

### Business Partners

Dasher's client list is extensive and includes a variety of for-profit and not for profit organizations. Go to [www.DasherInc.com](http://www.DasherInc.com) to read what our clients say about our team.
